

PROTECTIVE OIL N° 2 (MIL-PRF-16173E GRADE 2)

Corrosion Preventive Compound Soft Film Protects Metals Against Rust and Corrosion for Indoor Storage

Description:

PROTECTIVE OIL N° 2 is a corrosion preventive compound specially designed to protect metals against rust and corrosion for indoor storage, semisheltered outdoor storage and shipment. When used as recommended PROTECTIVE OIL N° 2 is easy and economical to apply and remove and provides a durable, long lasting, soft coating suitable for protecting metal surfaces against the elements of corrosive environment.

Advantages:

- Forms a corrosion resistant and salt water resistant protective film.
- Stops grinding by penetrating deep and lubricating, hinges, locks, mechanisms, threads, etc.
- After its application surfaces remain lubricated.
- Meets corrosion requirements of U.S. Military Specification MIL-PRF16173E GRADE 2 soft film.

Intended Usage:

- a) For extended indoor protection of interior or exterior surfaces of machinery, instruments, bearings or materials with or without use of supplementary barrier materials.
- b) For outdoor protection of material for limited periods where metal temperatures do not reach levels that produce prohibitive flow of the corrosion preventive film.

Alternative Usage:

PROTECTIVE OIL N° 2 can also be used for electric motors, outboard engines, distributors, spark plugs, relays, etc.

Directions for Use:

PROTECTIVE OIL N° 2 is used in full strength by spray, immersion or swab. Allow PROTECTIVE OIL N° 2 to dry to form a soft, protective anticorrosive film.

Product Removal:

PROTECTIVE OIL N° 2 is easily removed from parts by solvent wiping, steam gun cleaning or alkaline hot tank immersion.

Caution:

Avoid contact with skin and eyes. For further information refer to Material Safety Data Sheet (MSDS).

Packaging: PROTECTIVE OIL N° 2 is offered in 4, 13, 20 and 30 liter pails or 210 liter drums.
